Public Notice #05-042-CO-M-TVMM

Date: April 4, 2005

NOTICE OF DRAFT CONSTRUCTION PERMITS TO LIMIT POTENTIAL TO EMIT

**PINNACLE COMPOSITES
1401 PINEVIEW ROAD
COLUMBIA, SOUTH CAROLINA
(RICHLAND COUNTY / CENTRAL MIDLANDS EQC DISTRICT)
AIR PERMIT NOS. 1900-0213-CB & 1900-0213-CC**

Pinnacle Composites (Pinnacle) has applied to the SC DHEC for construction permits to relocate its existing fiberglass part manufacturing facility and install and operate additional equipment at the new location. A Draft National Emission Standards for Hazardous Air Pollutants (NESHAP) 40CFR63 Construction Permit, Draft Construction Permit, and Engineering Calculation (Green) Sheets have been prepared by the BAQ outlining the facility's proposed project and applicable regulations under which the draft permits are subject to review. If approved, the draft permits will enable this facility to comply with applicable State and Federal Air Quality Regulations when operated in accordance with the conditions contained therein. The pollutant limitations and other permit conditions set forth in the draft permits are tentative and open to comment from the public, affected states, and the United States Environmental Protection Agency (EPA).

Pinnacle is proposing to relocate its existing operations at 2 Mauney Court in Columbia, South Carolina, to the above-listed location. If approved, the relocation will also include the addition of one (1) Natural Gas-Fired Space Heater, two (2) atomizing Gelcoat Spray System Stations, three (3) non-atomizing Resin Chopper System Stations, and Tooling/Mold Maintenance & Miscellaneous Other Material Usage. Emissions generated by this facility include Particulate Matter, Volatile Organic Compounds (VOCs), Sulfur Dioxide, Nitrogen Oxides, Carbon Monoxide, and Hazardous Air Pollutants. The facility has agreed to accept federally enforceable, facility-wide limits of less than 54.6 tons per year (TPY) of VOC emissions for this permit, which include stringent monitoring, reporting, and recordkeeping requirements. Air dispersion modeling has demonstrated that operation of this facility as proposed will not interfere with the attainment or maintenance of any State or Federal Standard. If approved, the draft construction permit will limit the facility's potential to emit to below Prevention of Significant Deterioration (PSD) major source thresholds.

DHEC issued a Title V Operating (TV) Permit to this facility on December 6, 2004, after proper public notice and completion of a thirty (30) day comment period. The Department has identified the incorporation of the terms and conditions of Draft Construction Permit Nos. 1900-0213-CB & 1900-0213-CC into the existing TV permit as a minor modification in accordance with SC DHEC Regulation 61-62.70 "Title V Operating Permit Program." Therefore, if approved, and upon receipt of a minor modification request from the facility, the issued construction permit(s) will be incorporated into the TV permit with no additional public comment period and/or hearing required. All emissions limitations and conditions contained in the draft construction permits have been written to ensure that this facility continues to operate in accordance with the requirements of the Title V Operating Permit Program for the State of South Carolina.

Interested persons may review the draft permits, green sheets, and other materials maintained and used by DHEC in preparing these permits, and submit written comments (including the permit number and facility name), by May 4, 2005, to the attention of Ms. Veronica Gorman at the above DHEC address. All comments received by May 4, 2005 will be considered when making a final decision regarding the draft permit(s). Where there is a significant amount of public interest, DHEC may hold a public hearing to receive additional written and oral comments. If a public hearing is held, notice will be given in this publication thirty (30) days in advance. Requests for contested case hearings may be filed after a final decision has been made. Additional information regarding contested case hearings is available from the Office of General Counsel at the above DHEC address or by calling (803) 898-3350. Requests for a public hearing, or to be placed on a mailing list for notification of any future public notices or public hearings by the BAQ should be made in writing to the attention of Ms. Donna Moye at the above DHEC address, or by email at: moyedd@dhec.sc.gov.

Information relative to the draft permits will be made available for review through May 4, 2005 at the DHEC Columbia Office listed above. Additional information on permit decisions and hearing procedures is available by contacting DHEC at the above address or

telephone number. Copies of a draft permit or other related documents must be requested in writing. There is a \$.25 per page charge for copies.

Please bring the foregoing to the attention of person you know will be interested in this matter.
